I reached out to Steve A this morning and sent him my comments and alerted him that there were several areas where the 'legal' issues needed to be conformed. He will be doing that part.

Thx

OGC accepted my proposed edits from yesterday, so I do not believe additional negotiations are needed. I would just incorporate the final document language into the slides.

I suspected; wonder if you can weave this into the 'negotiations' with OGC?

Thanks, Tala. I reviewed, but did not make any edits – because there would be so many at this point.

Importance: High

Attached are the PFAS Roadmap slides that the 'workgroup' is currently commenting on. Mine are in this presentation as OPPT...they do this all on SharePoint, which I hate, so have downloaded.

Im sure Steve Anderson is reviewing now also;

Wanted to give you heads up, as I see quite a few slides that will likely not conform to what is currently being drafted for the document.

As mentioned earlier, OLEM has indicated they would be going over these slides with their Sr Mgmt this Friday.

Also, CCD is fixing the facts on slide 18 wrt SNUR dates.
